Please indicate the area or areas of your body that you would like treated.

- Mark the area with a **circle** for cellulite reduction.
- Mark the area with an **X** for body contouring.

If you are here for cellulite reduction, please read below.

Use the Nurnberger-Muller Cellulite Grading Scale below to grade your cellulite.

Stage Zero

No dimpling or apparent visible alterations to the skin surface upon standing or lying down or upon pinching the skin.

Stage One

No dimpling or apparent visible alterations to the skin surface upon standing or lying down, dimpling appears with the pinch test or muscular contraction.

Stage Two

Dimpling appears spontaneously when standing but not when lying down. The orange peel appearance of the skin is evident to the naked eye, without the need for manipulation.

Stage Three

Dimpling is spontaneously present when both standing and lying down, evident to the naked eye without the need for manipulation. Orange peel skin surface appearance with raised areas and nodules.

Please tell us at what stage you grade your cellulite: _____
